

ABOUT OUR HERITAGE ROADS

Our Heritage Roads are more than just canopy roads, they offer glimpses into the rich and colorful history of Jefferson County. The landscape is diverse and these driving tours will take you through scenic rolling hills with farms, ranches and timber lands. Experience the dramatic drop from the Cody escarpment down into the central and southwestern parts of the county. As you pass under old oaks draped with Spanish moss you can learn about the exploits of early settlers and explorers, and the rich agricultural, timber, and ranching history of our county. Picnic on the bank of a lake or river on your day trip or plan a longer stay and swim, boat and fish our beautiful waterways.

The Heritage Road System consists of four named trails:

-  **Miccosukee-Magnolia Trail** (Northwest)
-  **Plantation Trail** (Northeast)
-  **Spanish Trace Trail** (Central)
-  **Flatwoods-Wilderness Trail** (Southern)

We are delighted to have you visit with us and we hope you enjoy traveling our Heritage Roads. Please remember to check your fuel gauge and cell phone service. Slow down and enjoy the view - here in Jefferson County, most drivers still wave when passing each other!

For more detailed information about each trail, please see the other side of this map, pick up individual trail maps at the kiosk at Courthouse Circle in Monticello or go to our website at:
